FOR 2005-07 BUDGET -- NOT READY FOR INTRODUCTION

1 ^{Do Not Gen}
AN ACT ...; relating to: the budget.

Analysis by the Legislative Reference Bureau

HEALTH AND HUMAN SERVICES

HEALTH

Under current law, DHFS must collect, analyze, and disseminate health care information from health care providers other than hospitals and ambulatory surgery centers; in addition, DOA must contract with an entity to collect, analyze, and disseminate health care information from hospitals and ambulatory surgery centers. Both DHFS and the entity under contract with DOA must, from the data collected, prepare certain reports that do not permit the identification of a patient, an employer, or a health care provider. The Board on Health Care Information, attached to DHFS, must advise DHFS on the collection, analysis, and dissemination of health care information; provide oversight on the reports issued by DHFS and the entity under contract with DOA; and develop overall strategy and direction for health care information collection activities. Activities of the Board on Health Care Information and DHFS are funded from fees for performance of certain work under contract and from assessments that are annually levied on health care providers other than hospitals and ambulatory surgery centers.

This bill eliminates the Board on Health Care Information as of October 1, 2005, and replaces it on that date with a nine-member Health Care Quality and Patient Safety Board (HCQPSB), attached to DOA, which assumes the duties and powers of the Board on Health Care Information. In addition, the HCQPSB must do all of the following:

1. By March 1, 2006, study and make recommendations concerning the feasibility of creating a centralized physician information database.

2. By October 1, 2006, study and make recommendations concerning rules required and authorized to be promulgated by DHFS concerning the collection, analysis, and dissemination of health care information; promote the collection and availability of certain health care information; and foster the evolution of certain partnerships and agreements and transparency of health care information.

3. By January 1, 2007, develop a plan and specific strategies to deploy health care information systems technology for health care quality, safety, and efficiency.

4. Annually report on its plans, activities, accomplishments, and recommendations.

5. Annually assess the extent to which automated information and decision support systems are used by health care providers in Wisconsin.

6. Annually assess options and develop a plan to achieve automation of all health care systems in Wisconsin by 2010.

7. Make grants or loans to clinics, health maintenance organizations, hospitals, or physicians for various projects.

The bill prohibits DHFS from enforcing rules promulgated before the effective date of this bill as an act that relate to the collection, from physicians, of workforce and practice information, health care plan affiliations, and hospital privileges and, from dentists, chiropractors, and podiatrists, of workforce and practice information. Beginning July 1, 2007, the bill also prohibits DHFS from enforcing rules promulgated before that date that relate to physician claims data. DHFS may only promulgate rules that relate to the collection and dissemination of health care information that are first approved by HCQPSB.

The bill creates the health care quality improvement fund, a segregated fund that consists of moneys transferred from the injured patients and families compensation fund, the net proceeds of certain revenue obligations, a portion of the annual assessments levied on health care providers other than hospitals and ambulatory surgery centers, the repayment of any loans made by the HCQPSB, and any moneys transferred by the secretary of administration. Funds of the health care quality improvement fund are, under the bill, appropriated for general program operations of the HCQPSB, for grants or loans made by the HCQPSB, and for benefits under the Medical Assistance (MA) program, including payments for direct graduate medical education, a major managed care supplement, a pediatric services supplement, rural hospital supplements, and an essential access city hospital.

Under the bill, the entity under contract with DOA must annually report to the HCQPSB concerning the fulfillment of the entity's obligations under the contract. Also, before July 1, 2007, DHFS may promulgate only those rules relating to the collection, analysis, and dissemination of health care information that are first approved by the HCQPSB.

OTHER HEALTH AND HUMAN SERVICES

Under current law, the Wisconsin Health and Educational Facilities Authority (WHEFA) provides financial assistance to private and public health facilities and hospitals. This bill prohibits WHEFA from providing such financial assistance

unless the health facility or hospital demonstrates to the Health Care Quality and Patient Safety Board (HCQPSB) that the health facility or hospital is making efforts to improve medical technology.

INSURANCE

Under current law, certain health care providers are required to carry health care liability insurance with liability limits of at least \$1,000,000 for each occurrence and at least \$3,000,000 for all occurrences in a policy year. Any portion of a medical malpractice claim against a health care provider subject to the health care liability insurance requirements that exceeds the policy limits of the health care provider's health care liability insurance is paid by the injured patients and families compensation fund. Moneys for the fund come from annual assessments paid by the health care providers who are subject to the health care liability insurance requirements. Current law provides that the fund is established to curb the rising costs of health care by financing part of the liability incurred by health care providers as a result of medical malpractice claims and that the fund is held in irrevocable trust for the sole benefit of providers and proper claimants and may not be used for any other purpose of the state.

This bill transfers \$169,703,400 in fiscal year 2005-06 and \$9,714,000 in fiscal year 2006-07 from the injured patients and families compensation fund to the health care quality improvement fund, as created in the bill. The bill also adds to the stated purposes of the injured patients and families compensation fund the purposes of ensuring the availability of health care providers in Wisconsin and of enabling the deployment of health care information systems technology for health care quality, safety, and efficiency, by the Health Care Quality and Patient Safety Board (HCQPSB), as created in the bill.

STATE GOVERNMENT

STATE FINANCE

This bill creates a program to issue revenue obligations to fund costs of the Medical Assistance program. Under the bill, funds for the program may not exceed \$130,000,000. The bill provides that the principal and interest costs on the revenue obligations are to be paid from excise taxes that are currently imposed on the sale of liquor, fermented malt beverages, cigarettes, and tobacco products. These taxes are to be deposited into the excise tax fund, a fund under current law that can be used for any revenue obligations issued to pay the state's unfunded prior service liability under the Wisconsin Retirement System (WRS). To dedicate moneys in the excise tax fund for the payment of these grants, the bill eliminates the state's authority to issue revenue obligations secured by tax revenues derived from the sale of liquor, fermented malt beverages, cigarettes, and tobacco products for the payment of the state's unfunded prior liability under the WRS. Obligations for this purpose have already been issued under other current law authority.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

Debora,

If there's still time, I would like to clarify the WHEFA language in draft # 1649, section 88.

I want to expand the definition of medical technology to read "medical information systems technology" and have the board certify that the health care providers are making progress to improve their use of medical information systems technology.

Many Thanks,
Jim
